Alberta Learning
Student Population by Grade, School and Authority, Alberta 2001/2002

This report provides a count of students enrolled in Alberta schools in an Early Childhood Services program, or an elementary, junior high or senior high program of studies. This count is called the Student Population.

Prior to 1995/1996, student counts were referred to as "enrollments". These counts represented funded students less than twenty years of age attending regular day programs. While enrollment counts satisfied funding requirements, they tended to underestimate the total student population, as they did not include non-funded students, students attending other types of programs or attending certain types of schools, and many students over twenty years of age.

In 1995/1996, enrollment counts were replaced with a count of students registered in Alberta Learning's Student Information System. All students registered as of September 30th of a given school year were counted within the school associated with their primary registration, regardless of the type of program (e.g., day, evening, summer, continuing education) in which they are registered.

Starting with the 2001/2002 school year, student population reflects:
1) a count of students for whom a school authority has received funding, plus
2) a count of students not included in 1) but with a registration in effect September 30th of the school year.
